M&Z Rubinetterie SpA è un'azienda leader nella produzione di rubinetteria per il bagno e cucina e accessori doccia con una lunga esperienza, iniziata nel 1973. La fabbrica si trova a Bolzano Novarese, nei pressi del lago d'Orta e conta un totale di circa 150 dipendenti. Fin dalla nascita M&Z ha concentrato le sue energie sulla qualità e sull'eccellenza, mirando ad una crescita focalizzata sull'innovazione.

La produzione M&Z inizia dalla lavorazione delle materie prime per ottenere i prodotti finiti grazie ad impianti in grado di effettuare lavorazioni meccaniche, processi di lucidatura robotica e manuale, processi di cromatura, assemblaggio e collaudo.

Tutti i processi sono caratterizzati da un'attenta cura per i dettagli e dall'utilizzo delle soluzioni tecniche più avanzate.

A dimostrazione dell'elevata esperienza tecnica sviluppata negli anni, M&Z è anche specializzata nella produzione di cartucce termostatiche.

Caratteristica tipica del "Made in Italy", in M&Z particolare attenzione viene data al desiderio di coniugare l'eleganza e la bellezza del design alle soluzioni più innovative e pratiche, anticipando i desideri e le esigenze del mercato.

Sensibile al tema del Design, M&Z ha collaborato nel 1992 con il prestigioso studio Porsche Design Co. per il design di una futuristica ed innovativa serie di rubinetti e nel 2011 M&Z ha sviluppato le due serie, New Geometry e Aqua Soft con la Designer americana Terri Pecora.

M&Z è esperta anche nello sviluppo e nella progettazione di prodotti personalizzati seguendo le richieste e le specifiche dei clienti e questo le ha permesso di ottenere grande approvazione dai professionisti del settore.

Il marchio M&Z è registrato nell'intera Europa, in Cina, Hong Kong, Thailandia e Singapore.

Nel 1999 M&Z ha ottenuto la certificazione per la gestione della Qualità ISO 9001:2000 al quale sono poi seguiti gli aggiornamenti ed i rinnovi periodici, inclusa l'ultima versione ISO 9001:2008.

L'intera produzione M&Z segue le direttive europee per la produzione di rubinetteria sanitaria ed alcuni prodotti hanno ottenuto importanti certificati internazionali come ACS, WRAS, DWGW.

M&Z is considered one of the most prominent Italian manufacturer of mixers for bathroom and kitchen and shower accessories with a long production experience, started in 1973. The factory is located in Bolzano Novarese, North/West Italy, near Orta Lake and currently employs about 150 people. From the very beginning, M&Z has been focusing on providing its customers with superbly manufactured, high-quality products and has aimed at a commercial growth based on a strong reputation for innovation.

The M&Z production starts from the raw materials to obtain the finished products thanks to the complete facilities, including drilling, machining, manual and robot polishing, chrome plating, testing and assembling.

Each process is characterized by the careful attention to detail with the most advanced technical solutions.

As a demonstration of the high technical experience developed over the years, M&Z is also specialized in the production of thermostatic cartridges.

Typical feature of the "Made in Italy", in M&Z special attention is given to the desire to combine the elegance and beauty of design to the most innovative and practical solutions, anticipating the desires and needs of the marketplaces.

Sensitive at the topic of Design, M&Z cooperated in 1992 with the prestigious Porsche Design Co. to design a futuristic and innovative series of mixers and in 2011 M&Z has developed two new series, New Geometry and Aqua Soft, with the American Designer Terri Pecora.

M&Z is also specialized in the development and engineering/design of customized products according to the requirements and specifications of customers, obtaining great approval by industry professionals.

The M&Z Rubinetterie name and logo has been registered in whole Europe, in China, Hong Kong, Thailand and Singapore. In 1999, M&Z has been certified for the Quality Management ISO 9001: 2000 at which updates and periodic renewals have followed, included the last version ISO 9001:2008.

The entire production M&Z follows the European directives for the production of sanitary taps and some of its products have obtained important international certificates, such as ACS, WRAS, DWGW.
